Revenue in the U.S. increased 38% to \$10.81 billion, driven by a 46% increase in volume, partially offset by an 8% decrease due to lower realized prices. The increase in U.S. volume and decline in realized prices was driven by Zepbound and Mounjaro.

Revenue outside the U.S. increased 37% to \$4.74 billion, driven by a 35% increase in volume and to a lesser extent a 3% favorable impact on foreign exchange rates, partially offset by a 1% decrease due to lower realized prices. Gross margin increased 44% to \$13.11 billion in Q2 2025. Gross margin as a percent of revenue was 84.3%, an increase of 3.5 percentage points. The increase in gross margin percent was primarily driven by improved cost of production and favorable product mix, partially offset by lower realized prices.
